DETAILED ACTION

The following is a response to the amendment received on March 15, 2006 which has been entered.

Response to Amendment

Claims 2-69 are pending in the application. Claim 1 has been cancelled.

-The 112 2nd rejection of claim 58 has been withdrawn due to applicant deleting an indefinite limitation.

-The 103(a) rejection of claims 1, 41-46, 54, 56, 57 and 59 has been withdrawn due to applicant canceling claim 1.

-Claims 2-13, 15-17, 19, 20, 23-28, 37-39 and 60-69 were indicated as having allowable subject matter. Cancelled claim 1 has been amended to claim 2 wherein the limitations of claim 2 are not disclosed by the prior art of record.

Allowable Subject Matter

Claims 2-69 are allowed. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or render obvious a motivation to provide for:

-a transmission having a final output mechanism having a primary and secondary actuation element wherein the primary element has an operative connection with a first final output mechanism for establishing a transmission ratio step and also has an operative connection with another final output mechanism without having to disengage the transmission ratio step and in combination with all the remaining limitations of claim 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
